

August Pool Board Meeting
August 26, 2020

In attendance via Zoom meeting: Dan Hirsch, Terry Irving, Nick Zaneto, Jenn Azzara, Jon Miller, Carla Cole and Elvia Hajjar

Reports:

Sunshine Law read and reviewed July minutes, approved by Elvia, seconded by Jon. Melissa reports there will be a delay in installing the new water fountain, after the winter. Questioning where it should be installed. Suggesting the new water fountain be installed under the breezeway, near the men's bathroom.

Pool Management/Snack Bar

Pool is in good shape, no damage after the storm. Nick has been regularly vacuuming the pool, filter working well, have gone through much less chlorine. Nick has observed there is a water leak, but unclear where it is. Water level has to be maintained. Will be helpful information to pass on to the engineers for study. For pool closing, vacuums need to be winterized. Jeremy said he would get to the pool to clean up and winterize the snack bar. Ceiling fan needs to be replaced in snack bar and floors need a deep scrub. Clean up of the snack bar needs to be completed and inspected by Melissa before September pool commission meeting. Nick will follow up with Aquatics on emptying the pool early. Dan will follow up with DPW about completing handicapped ramp, gutter repaired near the snack bar, fixing the concrete near the slide and repairing the fan in the snack bar.

Motion to adjourn by Terry, seconded by Carla.

Scheduled follow up meeting for Wednesday, September 16th at 7pm via Zoom.
